

The Düsseldorf model for the promotion of exercise, sport and talent

Dear parents,

Düsseldorf wishes to make the children and young people of the city enthusiastic about exercise and sport. Scientific studies have shown that exercise is very important for the healthy development of children. This is why all children in Düsseldorf are taking part in a sports test at three different ages.

The first test, "SNUpi!", is performed at the local health authority when your child is approx. 6 years old, before school begins. The second test, "Check!", is carried out when your child is approx. 8 years old in 2nd grade and the third, "Re-Check!", at the age of approx. 10 years old in 5th grade. Check! and ReCheck! are performed during sports lessons at the schools.

It is important that you, as parents, provide us with your consent to the test results being evaluated by signing the enclosed form. Without your consent the tests cannot be evaluated.

After the tests have been evaluated you and the school will receive the results, as well as recommendations for the motoric development of your child. If you do not agree to the results being passed on to the school, please enter a cross in the box below.

As the children under go three test stages it is possible to monitor their development very well over the years.

Thank you very much for your participation!

Kind regards,

Sports Department of the City of Düsseldorf

Daten des Kindes: *Please now fill out the declaration of consent*

Vorname: Mädchen Junge
Please enter the first name of your child *Your child is a girl* *boy*

Name: Geburtsdatum:
Please enter the surname of your child *Please enter your child's date of birth here.*
